

STARTER

Automatic Levelling Laser Level

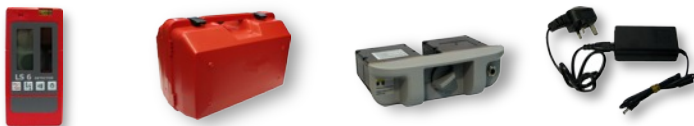

with long range version available

A horizontal only Laser Level with fully automatic levelling, slope match capability and rechargeable battery.

The Datum STARTER Automatic Laser Level is a horizontal rotating Laser level with fast automatic levelling, it offers an easy one button set up. The Laser features an out of level warning indicator to show if the Laser has been disturbed or knocked, plus a simple slope match facility in manual mode.

Also available is the Long Range version, which extends the working area to 800m. The standard kit includes Laser detector, clamp, rechargeable battery pack, charger, dry cell battery door and protective carry case.
