

Measurement Made Easy

# OPTICAL AUTOMATIC LEVEL

## AL32

The **Datum AL32** is the ideal automatic optical level with the general builder through to the civil engineer in mind. Featuring a built-in 360 degree circle to help set out angles, as well as a compensator function check button, the user can quickly and easily check the AL32 Optical Level's accuracy at a touch of a button.

Featuring crystal clear optics and 32x optical magnification, the Datum AL32 offers the user a wide angle view, providing clear views of the Level Staff. This trade favourite instrument delivers an accuracy rating of +/-1.0mm standard deviation over a 1km level run of levelling.

## SPECIFICATION

Accuracy (per double km run)	±1.0mm
Magnification	32x
Telescope	Erect
Objective Aperture	40mm
Focusing Distance	From 0.5m
Multiplication Factor	100
Additive Factor	0
Waterproof	Yes
Working Range	±15'
Setting Accuracy	±0.3"
Bubble Sensitivity	8' / 2mm
Circle Graduation	1 Degree
Weight	1.3kg
Warranty*	5 Year RTB

## WHAT'S IN THE BOX

- Datum AL32 Automatic Optical Level
- ABS Moulded Carry Case
- User Manual
