

Measurement Made Easy

CROSS LINE LASER CUBE

Looking for a small and simple Cross Line Laser Level? The **Datum Cube Laser Level** is an accurate and durable pocket laser for setting out horizontal or vertical lines using the highly visible red laser beams. Packing plenty of powerful features into its compact size, the automatic levelling line laser has an out of level warning alarm and a beam lock switch for providing sloped lines if required.

The lightweight Cube laser is versatile and ideal for many professional interior trades including Builders, Plumbers, Decorators, Kitchen Fitters, Electricians, Ceiling and Partitioning Contractors and anyone who needs a horizontal, vertical or cross line. Available in three packs, the Datum Cube Standard Edition comes in a blister pack containing the Laser, pouch and batteries.
